[GCS - AoR and CA NOD Response No.1 Feb 7 2022.pdf](#)

Good afternoon Laura,

While EPA has primacy, it would probably be best to go ahead and include us by default with any meeting concerning Class VI projects, if only to ensure at least one R6 EPA representative is present.

Attached are the initial NOD and response(s) and the most recent request for clarification, which has had no response yet.

Have not gotten into specifics with Texas but have put the prospect on their radar. Was LDNR not in the works with establishing an MOU/MOA on that particular topic?

---

**Subject:** GCS Class VI Review

Hey Ian,

Just to keep you in the loop, we’ve started our review of GCS’s Class VI application. Joanna Walker will be handling the geology portion. We’re also going to try and meet with them for a technical run through in the next few weeks. Details are TBD but let me know if EPA would like to be included on that meeting.

And I don’t know if it would need to be sent via OneDrive, but are you able to share a copy of EPA’s initial NOD for GCS?

Thanks,

**Laura Sorey, PG**
